

# How to Upload CampDoc Information

This year at Conclave we will be using CampDoc for medical forms instead of paper forms. This makes it easier to get in and out of Conclave. The CampDoc instance used for Conclave is the same one used for NOAC (coming up again in 2027) and NLS (the northern California NLS is in November 2026, talk to your lodge chief or adviser about attending), so if you have attended events like this in the past you may be all set, or you may just need to verify some information. If you have not attended these events, CampDoc will ask you to input all of part A & B of your medical form and your shot records. It takes a few minutes the first time, but for subsequent events (i.e. NOAC 2027 and NLS) it is much easier.

- 1) Login to NOAERS and select **Event** on the left-hand menu. Then select the link to **CampDoc** in the lower right box. This will take you to the CampDoc website for you to fill out your information.

The screenshot shows the NOAERS portal interface. At the top, there is a red header with the text "ORDER OF THE ARROW" and navigation links for "My Events", "My Profile", and "Logout". Below the header, the main content area is titled "Event Specific Information" for "Section G17S Conclave 2026 - Apr 17-19, 2026". On the left, there is a sidebar menu with options: "General", "Event" (highlighted in blue), "Schedule", "Travel", "Payments", and "Notes". The main content area is divided into three sections: "Additional Attendee Information", "Permissions and Releases", and "Health and Medical".

Additional Attendee Information		Permissions and Releases	
<b>OA Honor</b>		Accepted the Code of Conduct	YES
Brotherhood Attainment at Conclave?	NO	Receive Emergency Text Messages	YES
<b>Section G17S Sweatshirt</b>		Receive Program-Related Text Messages	YES
If you wish to purchase a Section G17S hoodie, please place your order here. You may return to this portal at a later time and select a sweatshirt size until March 20, 2026.
